ONE GARMENT – TEN CATALOG SHOTS

[modaai.app](https://modaai.app)

# Ten shots from a single upload.

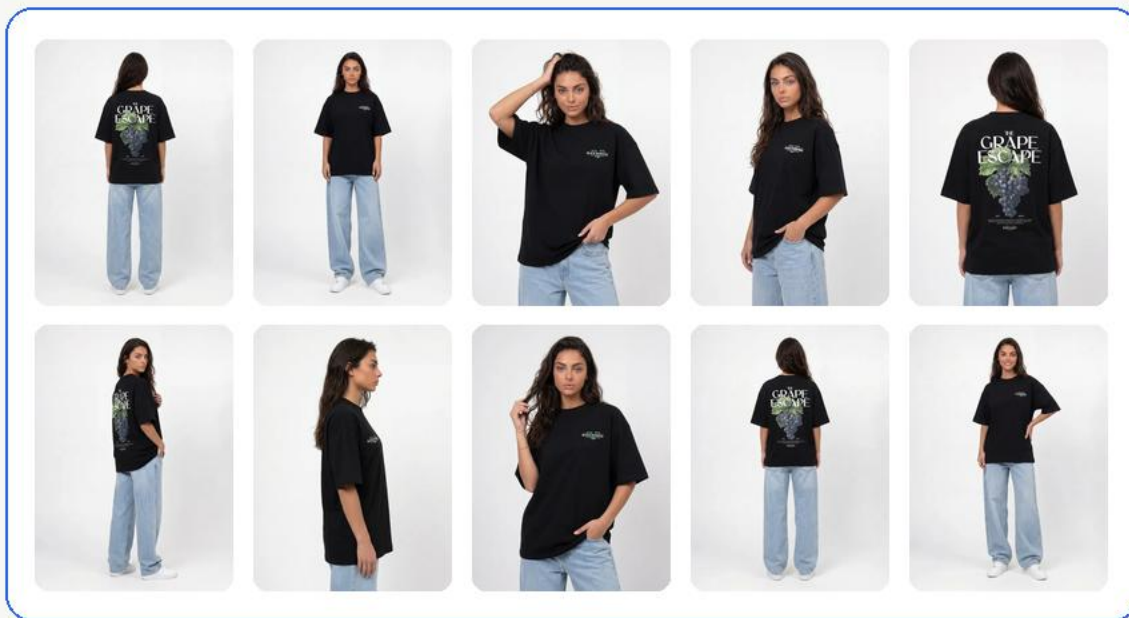

One garment in. A full on-model contact sheet out — same model, every angle, in minutes.

## 1 UPLOAD

Flat lay, hanger or mannequin.

## 10 CATALOG SHOTS

Front, back, profile, seated, detail and lifestyle — generated together.

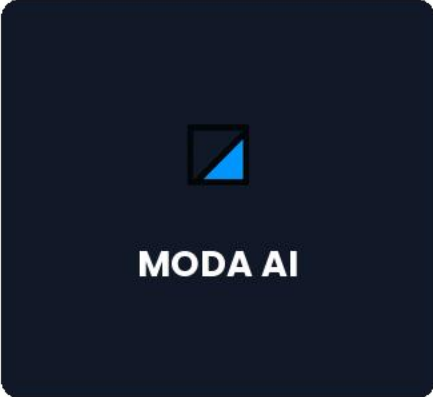

## ONE COLLECTION

Consistent across the entire line.

# Every angle covered.

A different garment, the same idea — a complete set of angles from one upload, perfectly on-model.

# From flat lay to fashion house.

Womenswear, menswear, kidswear, resort, streetwear and denim — one studio, every category.

# Make AI photography feel like a fashion house.

## 01 Editorial, not gimmick

Magazine typography and calm, white-space layouts so AI output reads as a real campaign.

## 02 One promise, everywhere

One garment in, a full on-model set out — the signature moment anchors every page.

## 03 Inclusive by default

A named model roster across genders, ages, ethnicities and body types — a feature, not a filter.

## 04 Two surfaces, one brand

A marketing site that converts and an embedded Shopify studio that feels native.

One design language carried from public marketing pages into the Shopify-embedded app.

# Pick a face. Build a catalog.

Women, men, kids and plus-size — across ethnicities and body types. Or upload a custom face for consistency.

The same shoot becomes short fashion video — sized for Reels, TikTok and ads — so one upload turns into a campaign across every channel.

# The new standard.

How the virtual studio compares to a traditional photoshoot — cost, speed and consistency.

	Traditional photoshoot	MODA AI virtual studio
Cost per SKU	\$100 – \$500+	<b>\$1.00</b>
Turnaround	4 – 6 weeks	<b>Under 2 minutes</b>
Logistics	Ship samples, book models, rent studio	<b>Zero — upload and generate</b>
Deliverables	Static images only	<b>10 angles + video assets</b>
Consistency	Varies by photographer & day	<b>Perfectly matched across the line</b>

# Real brands, real storefronts.
